

NOBAMED Paul Danz AG

CLAVICULA-Bandage

REF 372085

Product Description and Purpose

The one-piece special bandage (L) is suited for the treatment of clavicle fractures. It has a terry cloth cover on the interior side and is padded in the arm-pit area and under the tensioning rings. This increases wearing comfort. If the bandage is stretched sufficiently, the ends are fixed with the sewn-on hook and loop fasteners. The bandage is, fasteners closed, washable at 30° C in the case of domestic use. Due to its material composition, the product may not be treated chemo-thermally and may therefore not be used on different patients.

Composition

Cotton, Polyester, Polyamide, Polyurethane

Normative and Legal Requirements

The Clavicle-Bandage is a medical product according to directive 93/42/EEC and the regulation MDR (EU 2017/745) and is classified as class I, rule 1
